Keywords: Instructions, Mamern Conference, Approximation Methods, Numerical Modelling, Environment and Natural Resources.

Abstract. *This document provides instructions on how to prepare a contribution to the Proceedings of the International Conference on Approximation Methods and Numerical Modelling in Environment and Natural Resources, to be held in Pau (France) from 1st to 5th of June, 2015. The format of this contribution, which must be written in L^AT_EX, adopts the form of a “short or extended paper” the basic guidelines of which are given in the present example. **The abstract section must be entirely included in the first page of the document.***

1 Introduction

All accepted papers will appear in the Proceedings of the 6th International Conference on Approximation Methods and Numerical Modelling in Environment and Natural Resources, ISBN pending.

The MAMERN VI-2015 proceedings will be available at the conference.

In order to assemble a suitable book we ask all authors to write their manuscripts following the guidelines given in this document.

Selected papers will be published by Elsevier after a refereeing process in a special issue Mathematics and Computers in Simulation, Transactions of IMACS. Later on, instructions will be given for the submission of the full papers.

2 General instructions

The guidelines concerning the whole paper are:

- The contribution must be written in English.
- Since proceedings will be published in electronic format, there are no restrictions on number of pages.
- The contribution must be written in \LaTeX using the class file `Mamern15.cls` provided. When this file is used, the first page consists of the title, the authors and their affiliations, addresses and e-mails, the keywords and the abstract section.
- The file class provided must not be modified.
- The authors must not use any package not included in the `.cls` file provided. If an author needs some special packages not included in the `.cls` style, please contact us via e-mail. We will not accept any changes to `.cls` style or fonts.
- The \LaTeX source must be kept as simple as possible.
- Any figures included in the short paper must be in `.eps` format. To guarantee a good quality of the paper, we recommend to produce black and white figures.
- The proposed contribution must be upload following the instructions in <http://mamern15.sciencesconf.org>.
- For the deadlines, please see the web site.
- Before submitting a manuscript, the corresponding author must be pre-registered. Pre-registration is free.
- Upon acceptance, at least one author must do the early registration and payment.

- Early registration and payment gives right to publish at most one contribution per attendant. Any other situation must be consulted with organizers.
- Only electronic submissions by means of the online submission form are allowed.

3 Specifications

One example included in the Proceedings of MAMERN V–2013 is provided in order to help the authors in preparing the tex files of their contributions.
